Dear Colleagues and Friends,

In 2009 was organized the first Symposium on Thoracic and Thoraco-abdominal pathologies and since then these meetings have been a regular appointment every two years. The past Edition 2021 has tried adapting to new circumstances due to COVID-19 pandemic with web-streaming technologies.

Now it's time to return in the original format "in presence" (only session III will be on "streaming form") so I'm very glad to announce the 8th MAORI Symposium on Complex Diseases of Thoracic and Thoraco-Abdominal Aorta at "Magna Graecia" University of Catanzaro from 20 to 21 June 2023.

The original structure will remain: a two-day Symposium including a perfusion and a nursing programs and 5 scientific sessions dedicated to Lectures on all aspects of aortic pathologies, aortic valve, ascending aorta, arch and thoraco-abdominal aorta, pediatric and adult congenital ("new entry" session) performed by Italian and International experts.

The focus and spirit of MAORI Symposium will be unchanged with particular attention not only to all those involved in the diagnosis and therapy of aortic diseases but also to our students and postgraduates.

We look forward to another exciting and innovative MAORI Symposium at "Magna Graecia" University of Catanzaro and welcome you all to register, attend, and take part in discussions.

Sincerely yours,

Pasquale Mastroroberto
